Part 5: Assessment & Scoring Guide

To generate the final recommendation, sum the points for **Axis A** (Urgency) and **Axis B** (Complexity).

Axis A: Mandate Urgency Score (Max 23 pts)

Questions 1, 2, 3, 4

Total Score	Category	RSM Recommendation
18 - 23	Critical / Phase 1	Immediate Action. Client is a prime target for the July 2026 mandate. Mobilize assessment team immediately.
10 - 17	Phase 2 / High Likely	Planning Phase. Likely targeted for 2027, but should start vendor selection now to avoid bottlenecks.
0 - 9	Low Priority / Exempt	Monitor. Keep client informed of regulatory changes. No immediate implementation needed.

Axis B: Implementation Complexity Score (Max 75+ pts)

Questions 6-17

Total Score	Category	Recommended Solution Approach
40+	Enterprise / Complex	Custom Project. Requires dedicated Project Manager, robust middleware, data residency handling, and significant ERP customization.
20 - 39	Standard Integration	Middleware Solution. Use standard connectors (API/SFTP) with moderate mapping for multiple templates or entities.
10 - 19	Simple / Plugin	Plug & Play. Use ready-made connectors for Tier 2 ERPs (Zoho/Xero) or simple direct API.

0 - 9	Manual / Portal	Portal Solution. Volume is too low to justify integration. Recommend web-portal manual entry or excel upload.
